

Certificate of Completion for Professional Development Hours (PDH)

Activity: Professional Ethics Workshop
Date: June 4, 2018
Time: 11: 30 a.m. – 1:00 p.m.
Location: Society of American Military Engineers – Fort Worth
Petroleum Club
777 Main 4000
Fort Worth, TX 76102

Topic: *This Ethics class is meant to fulfill the one-hour ethics PDH credit for engineers. Ethics is often referred to as the right or wrong way of doing things. But how do we act when no one is watching? During this course we will define ethics, look at the Professional Codes of Conduct for Engineers and analyze case studies that will help you explore and strengthen your own professional ethics*

Content:

- Define Professional Ethics
- Develop a Personal Code of Conduct
- Analyze NSPE Board of Ethical Review Case Studies
- Learn about the available resources on ethics

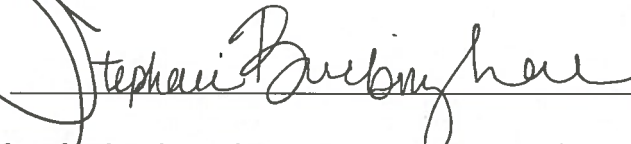

Objectives:

By attending this session, participants will be better able to:

- Learn to recognize ethical situations faced by engineers today
- Analyze the issues of an ethical situation
- Resolve the situation in a creative and professional manner

Presented by: Gordon Wells, P.E.; Stephanie Buckingham, APTD
